I certify that the version I have submitted is the same as that approved by my advisory committee.

I hereby grant to the California Institute of Technology (Caltech) and its agents the irrevocable, non-exclusive royalty free right to reproduce, distribute, and display, this thesis in whole or in part in any form including electronic formats now or hereafter known throughout the world for educational, research and scientific non-profit uses during the full term of copyright via the Digital Collections mechanisms maintained by the Caltech Library System. Part A.

My advisory committee and I agree that the above mentioned document be placed in the CaltechETD Digital Archive, Caltech's electronic thesis archive, with the following status: (choose one)

1. Release the entire work immediately for access worldwide.
2. Release the entire work for Caltech access only for: 1 year, 2 years, or 3 years.
After this time release the work for access worldwide. Extensions beyond 3 years require approval by the Graduate School of a written request describing the reason for delayed release.
3. Release the entire work for Caltech access only, while at the same time releasing only certain parts of the work (e.g., because other parts relate to publications) for worldwide access. Separate files must be submitted to use this option. Please check all that apply below, or provide an attached list:

4. Secure the entire work for patent and/or proprietary purposes for a period of one year. (during this period the copyright owner also agrees not to exercise her/his ownership rights, including public use in works, without prior authorization from Caltech). At the end of one year, either my proxy or I may request an automatic extension for one additional year. At the end of the one year secure period (or its extension, if such is requested), the work will be handled under option 1 above, unless my proxy or I request option 2 or 3 in writing.

Part B (optional proxy).

To cover cases such as when one or more of the student and committee signing this form becomes inaccessible, each of the following people (indicated by their names) printed) are authorized to serve as a proxy in submitting future versions of this form, so submissions with any of these proxies signing are officially recognized just as if the student and full committee had signed. It is suggested that the committee chair be a proxy.
